## Objective:

Obtain a Software Developer role with a company that allows me to use my knowledge and experience while continuing to expand my skills and professional development

## Education:

Bachelor of Arts in Economics, Depauw University, 2013

.NET Framework Course – Eleven Fifty Academy, 2019

## Technical Skills:

- HTML5
- CSS3
- Bootstrap
- C#
- .NET framework
- MVC framework

## Professional Experience:

Senior Financial Aid Analyst, Harrison College, Indianapolis, IN, June 2013 – September 2018

- Helped students complete the financial aid process before each quarter and assisted with any issues throughout their academic career
- Ensured strict compliance to federal regulations by undergoing quarterly compliance reviews and attending training opportunities
- Responded quickly to any student request and provided excellent student service
- Worked closely with admissions team to determine inefficiencies and improve student experience

## Projects:

### Static Storefront

- <https://github.com/ianmills1/StaticStorefront>
- Static webpage for fictional organization
- Tested knowledge of HTML and CSS

### Console Applications/Business Challenges

- <https://github.com/ianmills1/ConsoleAppChallenges>
- Completed three challenges designed to expand knowledge of C#
- Learned how to implement basic create, read and delete functions along with collection methods such as lists and queues

### Web Application

- <https://github.com/ianmills1/BetTracker>
- Designed a comprehensive project to test C# skills as well as learning MVC framework
- Learned how to implement a one-to-many connection between data tables
